

MINING CONSTRUCTION  
AND MAINTENANCE

**PPM**

An EMCOR Company

## Your Single-Source Mining Provider, No Matter the Project Size

The experienced mine construction and maintenance team at MOR PPM (PPM) understands the complexities and challenges of industrial mining operations. We can help you plan, address, and resolve issues regardless of project scope or size. We've developed a reputation for our robust capabilities and professional service, **earning the trust of many of the mining industry's leading organizations.**

### Comprehensive Solutions, from Experienced Professionals

Our seasoned staff and veteran crews offer end-to-end services for mining projects. We have thorough project control systems that allow us to perform projects ranging from small capital improvements to major greenfield plant construction.

Once your project/plant is operational, PPM can also provide complete maintenance services, including reactive and day-to-day preventive tasks. From planning to execution to ongoing support, you can count on our team.
